

Level Up CSP Microsoft 365 and Copilot

In person series

Modern Work & Business Applications

Introduction

Earn the new CSP Copilot Badges in the digital or in person series!

Score 80% or higher on the knowledge check and earn your Level Up CSP Copilot badges!

Level Up CSP Copilot Sales Badge:
aka.ms/Level-UpSalesAssessment
Access Code: XBXD-JDSA

Level Up CSP Copilot Technical Badge:
aka.ms/Level-UpTechnicalAssessment
Access Code: FOCF-QJEK

Steps to access:

1. You must log in to access the training and then add your access code. If you have log in difficulties, please sign up and log in with new credentials.
2. Badges are delivered in the assessment tool if you score 80% or above. You will receive a Microsoft verified Copilot badge to share on LinkedIn.
Please contact support@get365ready.com if you have any questions.

What is GitHub Copilot?

The brand name of GitHub's AI for developers

Available for many editors and as an extension
for VS Code

Currently powered by OpenAI's Codex model

COST

- 10\$ per month (first 2 months free)
- Free for verified students, teachers, and maintainers
of large open-source projects ([link](#))

A screenshot of the GitHub Copilot app page on a digital device. The page features a dark-themed icon of a white robot head with blue goggles. The title "GitHub Copilot" is displayed in bold black text. Below the title, it says "Your AI pair programmer". The developer information shows "GitHub" with a blue checkmark badge, "3,451,383 installs", and a rating of "★★★★★ (804)". A green "Install" button is prominent at the bottom left, and a link "Trouble Installing?" is at the bottom right.

Why is prompt engineering important?

Prompt engineering is a critical skill for anyone working with LLM AI models

A good prompt produces the desired outputs

Improvements you can perform to make the results more predictable:

- Make the prompt more specific
- Add structure to the output with formatting
- Provide examples with few-shot prompting
- Tell the AI what to do to avoid doing something wrong
- Provide context to the AI
- Using message roles in chat completion prompts
- Give your AI words of encouragement

What is the ratio of EV cars to EV chargers by region in the US for the past 3 years? Please show it in a table organized by region.

January 7, 2025 at 02:11 PM

Here's a table showing the ratio of electric vehicles (EVs) to EV chargers by region in the US for the past three years:

Region	Year	EVs per Charger
Northeast	2022	14:1
	2023	12:1
	2024	10:1
Midwest	2022	18:1
	2023	16:1
	2024	14:1
South	2022	20:1
	2023	18:1
	2024	15:1
West	2022	12:1
	2023	10:1
	2024	8:1

These ratios reflect the increasing number of EV chargers being installed across the country, particularly in regions like the West and Northeast, which have seen significant growth in EV infrastructure.

Is there anything else you'd like to know about EVs or their infrastructure?

Electric Vehicle Charging ... Electric Vehicle Charging ...

All generated content may be incorrect

Edit in Pages Copy

Ask me anything... 0 / 10000

What factors influence these ratios? How does this compare to other countries?

Announced on Jan 16, 2024

Copilot for Microsoft 365 now available in CSP for customers of all sizes

Channel

All channels (EA, CSP, Direct)

Pre-reqs

Business Standard, Business Premium,
Office 365 A3/A5* and E3/E5
Microsoft 365 A3/A5* and E3/E5

Order size

No minimum license purchase size requirements.

A customer cannot purchase more licenses of the Copilot add-on than the collective sum of their prerequisite SKUs.

*Customers with Academic SKUs are not currently eligible to purchase Copilot for Microsoft 365 through CSP. They are only available through Enrollment for Education Solutions (EES). We plan to gradually extend access and more details will be shared in the coming months.

Prerequisites for using Copilot for Microsoft 365

Contoso Life uses Microsoft 365 Business Premium today, they already meet most of these prerequisites.

Microsoft 365 Apps
for enterprise

Microsoft Entra ID

Microsoft OneDrive

Microsoft Outlook

Microsoft Teams

Microsoft Loop

Microsoft
Whiteboard

Technical requirements for Copilot for Microsoft 365

- ✓ Microsoft 365 E3 or E5
Microsoft 365 Business Premium or Business Standard
- ✓ Microsoft Entra ID account (Entra ID)¹
- ✓ Some features (file restore, management, etc.) require a OneDrive account
- ✓ WebSockets (wss://) allowed to endpoints in ID #46 in the section for [Microsoft 365 Common and Office Online](#)
- ✓ Word, Excel, and PowerPoint: first available in web versions and later in Desktop (Current Channel)
- ✓ Outlook: Users need to be using the new Outlook for [Windows](#) or [MacOS](#)
- ✓ Teams: Users must be using Teams desktop or the web app. Both current and new versions of Teams supported²
- ✓ Loop: Tenants must have Loop enabled. [Learn more how to enable Loop.](#) [Manage Loop Workspaces.](#)
- ✓ Cross-app experience depends on indexed data; tenants with the richest data get the best results

Please note this is an early version of the technical requirements for Copilot for Microsoft 365 EAP and subject to change

¹Currently there is no obstacle to a hybrid solution such as using AAD as well a third-party single sign-on solution (e.g., Okta)

²Once Business Chat is configured in the Teams desktop client, users can access it in the mobile client.

1 of 30 responses AI-generated content may be incorrect

We had a similar issue last year when another competitor lowered prices. I remember a document was written where we explored possible actions we could take. What were those actions?

I found the document titled Market Strategy 2023 that outlines the actions considered when a competitor lowered prices last year. Here are the three strategic options that were explored:

1. **Price Reduction:** This option involved reducing our product prices by 15% to match or undercut the competitor. The goal was to maintain market share by making our products more attractive to price-sensitive customers. This strategy required a comprehensive market analysis to understand the competitor's pricing and identify the optimal price point for our products. Additionally, it involved reviewing and potentially reducing operational costs to maintain profitability despite the reduced prices. This included negotiating with suppliers to reduce material costs, optimizing production processes, and reducing overheads [1](#) [2](#).
2. **Promotional Offers:** Another option was to introduce promotional offers to attract customers without permanently lowering prices. This could include limited-time discounts, bundling products with additional services or accessories, and offering loyalty rewards. The idea was to provide added value to customers and incentivize purchases while maintaining the perceived value of our products [1](#) [2](#).
3. **Advertising Campaign:** The third option was to launch an advertising campaign to highlight the unique features and benefits of our products compared to the competitor's offerings. This strategy aimed to reinforce the value proposition of our products and differentiate them in the market. The campaign would focus on the superior quality, innovative features, and long-term benefits of our products to justify the premium pricing [1](#) [2](#).

These strategies were designed to address the competitive pricing challenge and maintain our market position. Would you like to discuss any of these options in more detail or explore new strategies for the current situation?

Semantic Index

Microsoft Graph
Graph API, Connectors, & Data Connect

The Microsoft Graph

The Microsoft Graph is the **gateway to data and intelligence in Microsoft 365**. The Graph uses a unified programmability model to access data across Microsoft Cloud Services including Microsoft 365 core services, Enterprise Mobility + Security, Windows services, and Dynamics Business Central

- **Graph API** - single endpoint for real-time access to internal data
- **Graph Connectors** - delivers external data to the Microsoft graph (e.g. Salesforce, Jira, etc)
- **Graph Data Connect** – Secure and scalable bulk data access to the Azure AI platform to enable insights and analytics

Semantic Index

The semantic index **sits on top of the Microsoft Graph** to interpret user queries and to produce sophisticated, meaningful, and multilingual responses that help you to be more productive.

- Technology that powers the search functionality in Copilot for Microsoft 365
- Uses artificial intelligence and natural language processing to understand the meaning behind the words used in search queries, allowing for more accurate and efficient search results
- Able to recognize synonyms, related concepts, and other factors that can help refine search results, making it easier for users to find the information they need

Without Semantic Index for Copilot

The screenshot shows the same search interface for 'Project Melbourne Shiroom' but with Semantic Index for Copilot enabled. The search bar remains the same. The search results are identical to the first screenshot, but additional context is provided through callouts and expanded details:

- The 'Did you mean' suggestion 'project melbourne show room?' now includes a link to 'Search only for 'Project Melbourne Shiroom''.
- An expanded result for 'Melbourne - Upcoming Workshops' provides a detailed description: 'Project Melbourne is a forward-thinking and comprehensive urban development initiative that envisions a sustainable, technologically advanced, and inclusive future for the organisation.'
- The 'PM Specification Document' result has a link to its SharePoint page: <https://microsoft.sharepoint.com/teams/SalesAndAccounts/Profiles/Melbourne/>.
- The 'PM Shiproom June 2023' result includes a sharing insight from 'Karin Blair': 'Karin Blair shared this with you 5 days ago'.
- A 'Frequently Asked Questions' section is shown with three collapsed questions: 'What are the dependencies on Project Melbourne?', 'When is project Melbourne expected to finish?', and 'What is the budget for project Melbourne?'. Each question has a 'Was this answer useful?' button below it.

Copilot works with you in cleaning your inbox and messages

Copilot in Outlook

Some example prompts you can ask **Copilot**:

- Summarize the emails I missed while I was out. Flag important items.
- Draft a response thanking them and asking for more details; shorten this draft and make the tone professional.
- Invite everyone to a “lunch and learn” about new product launches next Thursday at noon.

The screenshot shows the Microsoft Outlook interface. On the left, the ribbon navigation bar includes Home, View, Help, New Mail, Delete, Archive, Sweep, Move to, Quick steps, Read/Unread, and various icons for search, reply, forward, etc. Below the ribbon is the 'Favorites' sidebar with links to Contoso Reports, lilly@contoso.com, and the current 'Inbox' folder, which contains 14 items. The main pane displays a list of emails from various users. A prominent 'Catchup with Copilot' card is overlaid on the list, showing a summary of the email from Maya Robinson and a 'Next' button. The main email list includes:

- Maya Robinson (@ FW: Update on manufacturing...) 12:35 PM Dear @Lilly and Team, I hope this email fin...
- Hayden Cook (@ FW: Update on manufacturing...) 10:35 AM Hi you two, I'm hoping you can help me
- Maya Robinson (@ Fw: Volunteers Needed) 10:02 AM Hey Alumn! We're looking for volunteers Honeybee Pr... +1
- Shai Shemesh (@ Presenting at the All-Hands) 9:48 AM Hi Lilly, Apologies for the short notice but...
- Maya Robinson (@ FW: Update on manufacturing...) 12:35 PM Dear @Lilly and Team, I hope this email fin...

To the right of the inbox, there's a 'Conversation summary' section for the Maya Robinson email, showing her message and a response from Hayden Cook. At the bottom, there's a 'Draft with Copilot' section with buttons for accepting or declining an invitation. The status bar at the bottom right shows 'Today at 8:58 AM'.

Copilot in Teams Meetings

The screenshot shows a Microsoft Teams meeting interface. The top navigation bar includes a search bar and tabs for Chat, Details, Files, Recap, and a plus sign. The main content area displays a meeting titled "Core accounts business review" from March 16, 10:00 AM. A "Shared content" section shows a file named "Proseware Proposal.pptx". Below it is a video thumbnail with a play button and a duration of "48m 42s". The sidebar on the left lists Activity, Chat (with 1 unread message), Teams, Calendar, Calls, Files, and Apps. The "Copilot" icon is visible in the Apps section. The recap pane on the right shows a summary of the meeting, mentioning "Core accounts.loop" and "Quarterly results and forecasts for Core Accour". It includes a "Summary" section with a list of points based on attendee input, and a "Notes" section with bullet points about Proseware's negotiation strategy and a new opportunity.

Quarterly results and forecasts for Core Accour

Summary

Based on what attendees said in the meeting

- \$230K revenue shortfall in this quarter
- Inventory 15% surplus (renewable products and recycled)
- Account leads to propose discounting scenarios to lower i
- Proseware was discussed as a leading opportunity

Notes

Beth emphasized importance of Proseware negotiation st with offers - this is a must win deal. ↗

- The team identified a new opportunity with Proseware th

Intelligent recap in Copilot

Built-in and automated

Standardized

Video, speaker, and chapter markers

Available after meeting only

The screenshot shows two main interface sections. On the left, a 'Product roadmap discussion' meeting summary is displayed. It includes a timeline with speaker markers for Mona Kane, Babak Shamma, Daniela Mandera, Amanda Brady, and Bruno Zhao. Below the timeline, there are sections for 'Content' (Product Roadmap, Marketing budget, Marketing demo), 'Meeting notes' (with a list of points from the meeting), and 'Follow-up tasks' (a list of actions). A prominent 'Copilot' button is visible at the top right of this section. On the right, a separate window titled 'Copilot in Teams' shows a table comparing pros and cons for a campaign strategy. The table has two columns: 'Pros' and 'Cons'. The 'Pros' column includes 'Wider range of potential leads', 'Simpler, faster sign-up process', and 'Streamlines multiple campaigns'. The 'Cons' column includes 'Less persuasive', 'Difficult to segment audience', and 'Less engaging'. At the bottom of this window, there are buttons for 'Copy', 'Elaborate on each pro and con.', 'List more options.', and 'Ask a question about this meeting'.

Use **built-in meeting summaries** and **ask any question** about the meeting

*Intelligent recap is also available in Teams Premium

Available real-time (during & after meeting)

Copilot helps you run effective meetings, get up to speed, organize key discussion points, and summarize actions

Copilot in Teams Meetings

Some example prompts you can ask **Copilot**:

- Summarize what I've missed in the meeting.
- Create a table of pros and cons for [\[topic\]](#).
- What decisions were made, and what are some suggested next steps?

A screenshot of a Microsoft Teams meeting titled "Supply Chain Implications". Four participants are visible in video feeds: Beth Andrews, Crystal McKinney, Ray Tanaka, and Reta Taylor. The Copilot sidebar on the right contains a summary of the meeting, including a list of topics discussed and a question from the group about inventory status. A cursor is pointing at the "Scanning references..." button in the Copilot sidebar.

Copilot in Chat and Loop

The screenshot shows the Microsoft Teams application interface. On the left, there's a vertical navigation bar with icons for Activity, Chat, Teams, Calendar, Calls, Files, ..., Apps, and a plus sign. The main area is titled "Teams" and contains a search bar at the top right. Below the search bar, there's a "Pinned" section with "Business Development" and "Wide World Importers" teams. Under "Your teams", the "Wide World Importers" team is expanded, showing its "General" channel and a sub-channel "NAM Sales Team". To the right of the Teams interface, there's a decorative background image of a colorful landscape with a tree. At the bottom right, there's a "Wide World" section with a "Team:" label followed by "Daisy" and "Samantha", and a "To-Dos" section with a "Task Name" input field.

Sales growth over time for Proseware

The chart shows a single data series representing sales growth percentage over five quarters. The data points are: Q1-22 (8%), Q2-22 (11%), Q3-22 (11%), Q4-22 (8%), and Q1-23 (1%).

Quarter	Growth (%)
Q1-22	8%
Q2-22	11%
Q3-22	11%
Q4-22	8%
Q1-23	1%

Projected Sales growth over time

This chart is a projection based on the historical data. It shows a projected line starting at 8% in Q1-22, rising to approximately 11% in Q2-22, peaking around 11.5% in Q3-22, and then slightly decreasing to about 10.5% in Q4-22 and 10% in Q1-23.

Model: 'Reusable Containers' with Q1-22

Product	Q1-22	Q2-22	Q3-22	Q4-22	Q1-23
Biodegradable Cleaning Products	3%	4%	6%	10%	5%
Compostable Food Packaging	9%	11%	15%	5%	13%
Reusable Containers	7%	10%	11%	6%	-9%
Reusable Water Bottles	15%	18%	18%	10%	17%
Natural Personal Care Products	10%	14%	9%	5%	33%

Product	Q1-22
Biodegradable Cleaning Products	3
Compostable Food Packaging	9
Reusable Containers	7
Reusable Water Bottles	15
Natural Personal Care Products	10

Copilot works alongside you to help analyze and explore your data

Some example prompts you can ask **Copilot**:

- Give a breakdown of the sales by type and channel. Insert a table.
- Project the impact of **[variable]** and generate a chart to help visualize it.
- Model how a change to the growth rate for **[variable]** would impact my gross margin.

A screenshot of Microsoft Excel showing a data table titled "Q1 Performance". The table has columns for Country, Customer, Product, Discount Band, Units Sold, Manufacturing Price, Sale Price, and Gross Sales. The Copilot add-in is open on the right side of the screen. It displays a summary message: "Analyze this quarter's business results and summarize three key trends". Below this, a box highlights "Key trends": "Sales are trending up for all customers, except Proseware which is down this quarter.", "Manufacturing costs are down this quarter after an increase in Q3.", and "Low discount products made up nearly half of total sales last month.". An "Explain" button is located below the trends. At the bottom of the Copilot window, there is a text input field that says "Describe what you'd like to create, or type / for suggestions". A cursor is visible at the bottom right corner of the Copilot window.

A	B	C	D	E	F	G	H	
1	Country	Customer	Product	Discount Band	Units Sold	Manufacturing Price	Sale Price	Gross Sales
2	France	VanArtsdel	Biodegradable Cleaning Products	Low	4345	\$10	\$352	\$1,200
3	USA	VanArtsdel	Biodegradable Cleaning Products	Low	4245	\$10	\$352	\$1,200
4	Australia	VanArtsdel	Biodegradable Cleaning Products	None	4124	\$10	\$352	\$1,200
5	Mexico	VanArtsdel	Biodegradable Cleaning Products	Medium	3954	\$10	\$352	\$1,200

Copilot in Excel

Using natural language as an input, Copilot simplifies common tasks, like removing duplicates or splitting text, applying formulas, like VLOOKUP and SUMIF, and creating compelling visuals, like bar charts, scatter plots, and Pivot Tables.

The screenshot shows a Microsoft Excel spreadsheet titled "EV Charger - Sales Analysis.xlsx". The spreadsheet contains a table of sales data with columns: Date, Product ID, Product Name, Category, Sales Channel, Units Sold, and Total Revenue. The data spans from row 3 to 35, showing various products across different categories and sales channels over time.

The Copilot ribbon tab is selected, displaying several cards:

- Highlight any rows where chargers have less than \$100K in revenue in red:** A card with a green background and a red highlight.
- Sure! Looking at B2:H453R, here's 1 conditional formatting rule to review and apply:**
 - Custom Formula:** Apply a conditional format on cells in SalesUnique? body using the formula below:
 - = Fill color: red
 - = Font color: black
- Finishing up...**
- Using this workbook:** A card with a question: "Ask a question, or tell me what you'd like to do with B2:H453R".

Copilot Extensibility

Plugin types

Use existing integrations or build new ones to extend your organization's AI-powered skills.

Teams Message Extensions

Message extensions allow users to interact with a web service through buttons and forms in the Microsoft Teams, Outlook, and Microsoft 365 app clients.

Power Platform Connectors

A proxy or a wrapper around an API that allows users to leverage a set of prebuilt actions and triggers to build their apps and workflows.

Open AI Plugins

Open AI plugins connect ChatGPT to APIs, enabling it to perform actions like browsing and interacting with websites and games.

Existing Investments

New

Extend Microsoft Copilot for Microsoft 365

- Enrich the data estate of your enterprise with industry-leading AI.
- Keep your users in the flow of their work, start to finish.
- Inherit world-class security, compliance, and privacy policies

Copilot Customization

Introducing

Copilot Studio

Customize Copilot for Microsoft 365

Enable greater control and efficiency by authoring responses to predictable scenarios within Copilot for Microsoft 365.

Create custom copilots and GPTs

Incorporate your data and plugins for engaging interactions in the places that matter the most.

Use one connected platform

Built on the foundations of leading AI technologies including Power Virtual Agents, and can connect to Azure AI Studio and more.
