Microsoft 365 Copilot

Your AI assistant at work

Announced on Jan 16

Copilot for Microsoft 365 now available in CSP for customers of all sizes

Channel

All channels (EA, CSP, Direct)

Pre-reqs

Business Standard, Business Premium,
Office 365 A3/A5* and E3/E5
Microsoft 365 A3/A5* and E3/E5

Order size

No minimum license purchase size requirements.

A customer cannot purchase more licenses of the Copilot add-on than the collective sum of their prerequisite SKUs.

*Customers with Academic SKUs are not currently eligible to purchase Copilot for Microsoft 365 through CSP. They are only available through Enrollment for Education Solutions (EES). We plan to gradually extend access and more details will be shared in the coming months.

Prerequisites for using Copilot for Microsoft 365

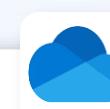

Contoso Life uses Microsoft 365 Business Premium today, they already meet most of these prerequisites.

Microsoft 365 Apps

Technical requirements for Copilot for Microsoft 365

- ✓ Microsoft 365 E3 or E5
Microsoft 365 Business Premium or Business Standard
- ✓ Microsoft Entra ID account (Entra ID)¹
- ✓ Some features (file restore, management, etc.) require a OneDrive account
- ✓ WebSockets (wss://) allowed to endpoints in ID #46 in the section for [Microsoft 365 Common and Office Online](#)
- ✓ Word, Excel, and PowerPoint: first available in web versions and later in Desktop (Current Channel)
- ✓ Outlook: Users need to be using the new Outlook for [Windows](#) or [MacOS](#)
- ✓ Teams: Users must be using Teams desktop or the web app. Both current and new versions of Teams supported²
- ✓ Loop: Tenants must have Loop enabled. [Learn more how to enable Loop.](#) [Manage Loop Workspaces.](#)
- ✓ Cross-app experience depends on indexed data; tenants with the richest data get the best results

Please note this is an early version of the technical requirements for Copilot for Microsoft 365 EAP and subject to change

¹Currently there is no obstacle to a hybrid solution such as using AAD as well a third-party single sign-on solution (e.g., Okta)

²Once Business Chat is configured in the Teams desktop client, users can access it in the mobile client.

Internet

Microsoft 365 Copilot

Embedded across Microsoft 365 apps

Impact by Workflow

Effective meetings

- Quickly catch up on meetings you missed
- Summarize a meeting and identify next steps
- Run a more effective meeting

Data analysis

- Get answers from across all your data
- Instantly uncover key insights
- Create powerful and professional visualizations

Content creation

- Jumpstart creativity, and write and edit like a pro
- Quickly catch up on the key points of a document or presentation
- Create documents, presentations, charts, and tables

Email processing

- Draft email replies instantly
- Personalize the tone and length even on the go
- Quickly summarize a long email thread

Impact by Function

HR

- Communicate policies and draft job descriptions
- Create stunning training materials
- Easily respond to job applicants' or employees' emails

Marketing

- Identify relevant market trends and segments
- Create the first draft for a project
- Summarize campaign results with powerful visuals

Sales

- Have better sales conversations and close more deals
- Create sales presentations and proposals
- Analyze sales data from previous quarters

IT

- Create a project plan for a product roll-out
- Stay up to date on various project calls and chats
- Identify patterns in data and solve issues faster

Finance

- Simplify financial reporting and planning
- Identify performance improvements
- Report metrics using professional charts

Copilot for Microsoft 365

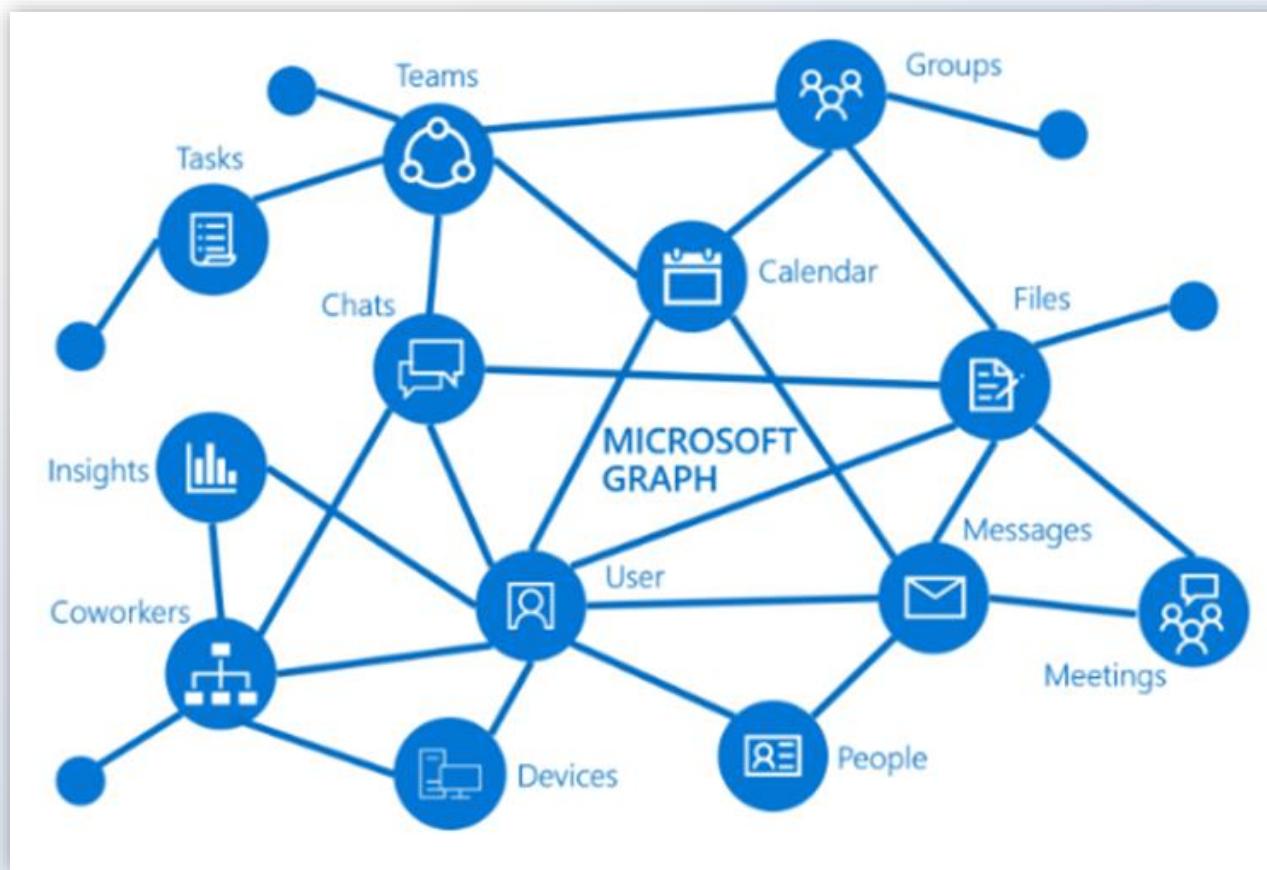

Architected to access to
your **business content**
and **context**

Microsoft Graph
Graph API, Connectors, & Data Connect

The Microsoft Graph

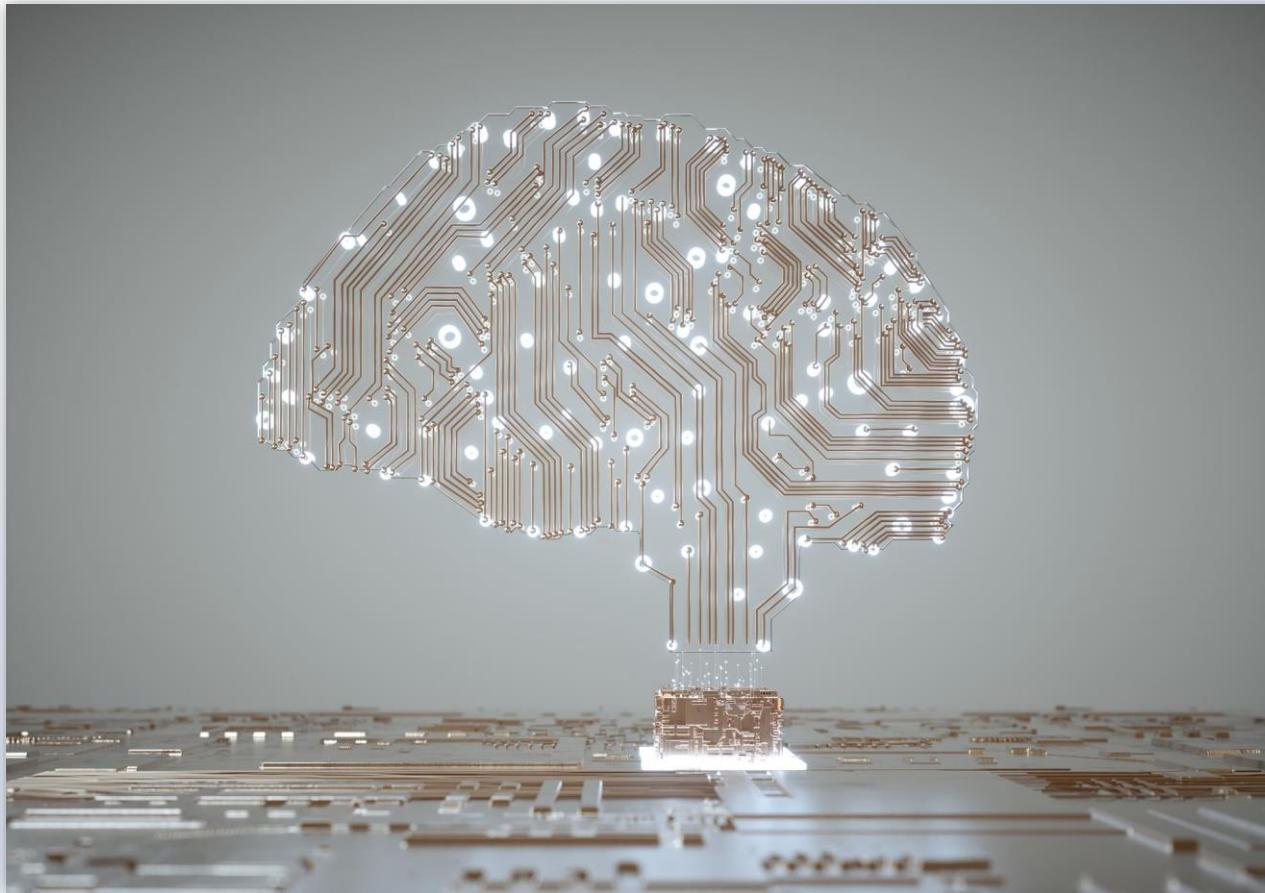

The Microsoft Graph is the **gateway to data and intelligence in Microsoft 365**. The Graph uses a unified programmability model to access data across Microsoft Cloud Services including Microsoft 365 core services, Enterprise Mobility + Security, Windows services, and Dynamics Business Central

- **Graph API** - single endpoint for real-time access to internal data
- **Graph Connectors** - delivers external data to the Microsoft graph (e.g. Salesforce, Jira, etc)
- **Graph Data Connect** – Secure and scalable bulk data access to the Azure AI platform to enable insights and analytics

Semantic Index

The semantic index **sits on top of the Microsoft Graph** to interpret user queries and to produce sophisticated, meaningful, and multilingual responses that help you to be more productive.

- Technology that powers the search functionality in Copilot for Microsoft 365
- Uses artificial intelligence and natural language processing to understand the meaning behind the words used in search queries, allowing for more accurate and efficient search results
- Able to recognize synonyms, related concepts, and other factors that can help refine search results, making it easier for users to find the information they need

MICROSOFT 365

Copilot in Outlook

Copilot works with you in cleaning your inbox and messages

Copilot in Outlook

Some example prompts you can ask **Copilot**:

- Summarize the emails I missed while I was out. Flag important items.
- Draft a response thanking them and asking for more details; shorten this draft and make the tone professional.
- Invite everyone to a “lunch and learn” about new product launches next Thursday at noon.

The screenshot shows the Microsoft Outlook interface. On the left, the ribbon navigation bar includes Home, View, Help, New Mail, Delete, Archive, Sweep, Move to, and various search and filter options. Below the ribbon is the Favorites sidebar with links to Contoso Reports, lilly@contoso.com, and the current selected folder, Inbox (14). The main pane displays a list of emails. A prominent blue callout box from "Catchup with Copilot" is overlaid on the list, containing the text: "Maya and the LT are discussing low revenue at the Canada plant and seek input on investing across the Americas". Below this, the first email in the list is from Maya Robinson, dated 12:35 PM, with the subject "FW: Update on manufacturing plants in America". The email body starts with "Hi Lilly, Apologies for the short notice but...". To the right of the inbox, there's a "Conversation summary" section for the same email thread, showing participants Maya Robinson, Lilly Koenig, Hayden Cook, and the BD Team. The summary includes a message from Maya: "I hope this email finds you well. I wanted to bring to your attention some concerning news regarding our Canada plant's revenue. Unfortunately, we have experienced an extreme low revenue in the past quarter, and we are still trying to identify the root cause of the issue. In light of this news, we are currently evaluating our investment plans for all plants in the Americas for the upcoming quarter. We want to make informed decisions that will benefit our company's growth and sustainability in the long run." Further down, there are responses from Hayden Cook and Shai Shemesh, and another email from Maya. At the bottom of the screen, a "Draft with Copilot" interface is visible with buttons for "Accept invitation thankfully", "Decline gracefully", "Might make it, will confirm later", and "Custom".

Copilot in Teams Meetings

The screenshot shows a Microsoft Teams meeting interface. The top navigation bar includes a search bar and tabs for Chat, Details, Files, Recap, and Notes. The main content area displays a meeting titled "Core accounts business review" from March 16, 10:00 AM. A "Shared content" section shows a file named "Proseware Proposal.pptx". Below it is a video thumbnail with a play button and a duration of "48m 42s". The sidebar on the left lists Activity, Chat (with 1 unread message), Teams, Calendar, Calls, Files, and Apps. The "Notes" tab is currently selected. The notes pane contains a summary of the meeting, mentioning quarterly results, forecasts, and a discussion about Proseware. It also highlights a negotiation strategy and a round table discussion. A note at the bottom states that the team identified a new opportunity with Proseware.

Intelligent recap in Copilot

Built-in and automated

Standardized

Video, speaker, and chapter markers

Available after meeting only

The screenshot shows two main interface sections. On the left, a Microsoft Teams meeting summary for a 'Product roadmap discussion' on Jan 21, 2023, at 10:00 - 11:00. It includes a timeline of speakers (Mona Kane, Babak Shamma, Daniela Mandera, Amanda Brady, Bruno Zhao), topics, and chapters. On the right, a 'Copilot in Teams' window displays an AI-generated recap. The recap includes a 'Content' section with links to 'Product Roadmap...', 'Marketing budget...', and 'Marketing demo f...'. Below this are 'Meeting notes' and 'Follow-up tasks'. The 'Meeting notes' section contains three bullet points about product roadmap, beta testing, and capacity management. The 'Follow-up tasks' section lists actions for Danielle and Jon. A 'Copilot' card in the background suggests creating a pros and cons table for campaign traffic.

Sales growth over time for Proseware

The chart shows a line graph with data points at each quarter. The y-axis represents percentage growth from 0% to 12%. The x-axis shows quarters Q1-22, Q2-22, Q3-22, Q4-22, and Q1-23. The data points are: Q1-22 (8%), Q2-22 (11%), Q3-22 (11%), Q4-22 (8%), and Q1-23 (1%).

Quarter	Growth (%)
Q1-22	8%
Q2-22	11%
Q3-22	11%
Q4-22	8%
Q1-23	1%

Projected Sales growth over time

This chart is a projection based on the historical data. It shows a line starting at 8% in Q1-22, rising to approximately 11% in Q2-22, and then slightly decreasing to about 10% in Q3-22.

Proseware Sales growth by Product

Product	Q1-22	Q2-22	Q3-22	Q4-22	Q1-23
Biodegradable Cleaning Products	3%	4%	6%	10%	5%
Compostable Food Packaging	9%	11%	15%	5%	13%
Reusable Containers	7%	10%	11%	6%	-9%
Reusable Water Bottles	15%	18%	18%	10%	17%
Natural Personal Care Products	10%	14%	9%	5%	33%

Model: 'Reusable Containers' with Q1-22

Product	Q1-22
Biodegradable Cleaning Products	3
Compostable Food Packaging	9
Reusable Containers	7
Reusable Water Bottles	15
Natural Personal Care Products	10

Copilot works alongside you to help analyze and explore your data

Some example prompts you can ask **Copilot**:

- Give a breakdown of the sales by type and channel. Insert a table.
- Project the impact of **[variable]** and generate a chart to help visualize it.
- Model how a change to the growth rate for **[variable]** would impact my gross margin.

A screenshot of Microsoft Excel showing a table of Q1 Performance data. The table has columns for Country, Customer, Product, Discount Band, Units Sold, Manufacturing Price, Sale Price, and Gross Sales. The Copilot feature is open on the right side of the screen, displaying a summary of key trends and an 'Explain' button. A callout box highlights the trends section, which states: "Key trends: • Sales are trending up for all customers, except Proseware which is down this quarter. • Manufacturing costs are down this quarter after an increase in Q3. • Low discount products made up nearly half of total sales last month." Below the trends, there is a text input field for users to describe what they'd like to create or type for suggestions. The Excel ribbon at the top includes Home, Insert, Formulas, Data, Review, View, Automate, and Help. The status bar at the bottom shows Calculation Mode: Automatic, General, Workbook Statistics, Give Feedback to Microsoft, and 100% zoom.

MICROSOFT 365

Copilot in M365 Chat

The screenshot shows a Microsoft 365 Copilot interface. At the top, there's a navigation bar with a user profile icon, a back arrow, a refresh button, and a search bar containing the URL <https://www.microsoft365.com/copilot>. Below the navigation is a sidebar with icons for Home, Create, My Content, Feed, Apps, Copilot (which is selected), Outlook, Teams, and Word.

The main content area features a large Microsoft 365 logo and the Copilot Microsoft 365 Chat logo. On the right, there's a "Try these prompts" section with four cards:

- Catch up on meetings**: Catch me up on meetings I missed yesterday
- Catch up on comms**: Summarize unread message this morning
- Get up to speed**: List key points from file
- Polish my writing**: Suggest edits to file to make more concise

Demo

Copilot Extensibility

Plugin types

Use existing integrations or build new ones to extend your organization's AI-powered skills.

Teams Message Extensions

Message extensions allow users to interact with a web service through buttons and forms in the Microsoft Teams, Outlook, and Microsoft 365 app clients.

Power Platform Connectors

A proxy or a wrapper around an API that allows users to leverage a set of prebuilt actions and triggers to build their apps and workflows.

Open AI Plugins

Open AI plugins connect ChatGPT to APIs, enabling it to perform actions like browsing and interacting with websites and games.

Existing Investments

New

Extend Microsoft Copilot for Microsoft 365

- Enrich the data estate of your enterprise with industry-leading AI.
- Keep your users in the flow of their work, start to finish.
- Inherit world-class security, compliance, and privacy policies

Copilot Customization

Introducing

Copilot Studio

Customize Copilot for Microsoft 365

Enable greater control and efficiency by authoring responses to predictable scenarios within Copilot for Microsoft 365.

Create custom copilots and GPTs

Incorporate your data and plugins for engaging interactions in the places that matter the most.

Use one connected platform

Built on the foundations of leading AI technologies including Power Virtual Agents, and can connect to Azure AI Studio and more.
